

Special educational needs (SEN) and disabilities

EYFS: 1.6, 2.3, 2.10, 3.67

Within Wyvern Nursery Ltd we are committed to the inclusion of all children. All children have the right to be cared for and educated to achieve the best possible outcomes, to share opportunities and experiences and develop and learn alongside their peers. We provide a positive and welcoming environment where children are supported according to their individual needs.

We recognise that some children may have additional needs that may require particular help, intervention and support. These needs may be short-lived for a particular time in the child's life or may require longer-term or lifelong support. At all times we will work alongside each child's parents and any relevant professionals to share information, identify needs and help the child and their family access the support they need.

In accordance with our admissions policy, we are committed to providing a childcare place, wherever possible, for children who may have special educational needs (SEN) and/or disabilities according to their individual circumstances, and the nursery's ability to make any reasonable adjustments in order to provide the necessary standard of care. All children will be given a full settling in period when joining the nursery according to their individual needs.

Where we believe a child may have learning difficulties and/or a disability that has not previously been acknowledged, we will work closely with the child's parents and any relevant professionals to establish the child's needs and to secure any action that may be required. We recognise that children with disabilities may not have SEN but may need the nursery to make reasonable adjustments to enable them to make full use of the nursery's facilities.

Where we have emerging concerns about a child and/or where a child has identified additional needs or a disability, we will find out as much as possible about the needs of the child and any support the child or family may need to ensure the child makes the best progress in their learning and development. We do this by:

- liaising with the child's parents
- observing each child's development and monitoring such observations regularly
- liaising with any other relevant professionals engaged with the child and their family
- seeking any specialist help or support
- researching relevant publications/sources of help
- reading any reports that have been prepared
- attending any assessment or review meetings with the local authority/professionals.
